Letter to Shareholders

Our Canadian operations performed well in the third quarter which positions us, through sales backlog and other lot sales contracts, to do even better in the fourth quarter. Our U.S. operations continue to face the same challenges as the rest of our competitors in the marketplace.

Our pre-tax income of \$81 million for the nine months ended September 30, 2011 compared with \$130 million for the same period in 2010 reflects similar performance to last year from our Canadian operations, lower performance from our U.S. operations and the introduction of the transactional debt interest resulting from the merger.

Markets

Volatility and uncertainty in the global marketplace provides a backdrop for a consumer who is understandably nervous, particularly in the U.S. Notwithstanding this, in Alberta, 86,000 new jobs were created in the last nine months, many related to capital projects slated for Northern Alberta. This job creation, given the size of the Province, far outpaces almost any other area around the world. Given the normal time lag between job creation and home ownership, this augers very well for our future in Alberta.

The overriding risk to this positive news in Canada is the threat of a double-dip recession in the U.S. There are many different views on the likelihood of this occurring. If it does not occur, we are well positioned, especially in Canada, to take advantage of the jobs that will continue to be created in the energy industry and the resultant home sales. If a double-dip were to occur, we believe we are well equipped to take advantage of distressed opportunities, predominately in the U.S., that will inevitably present themselves over the next 12 to 18 months.

Opportunities

In order to maintain as much optionality as possible and enhance our liquidity for future opportunities, the Company has reached an agreement, subject to board approvals, to amend the terms of its C\$265 million of transaction debt such that the originally scheduled principal payments of C\$50 million during each of the next three years will now be due along with the final payment of C\$115 million on December 31, 2015. Further, the Company has reached an agreement with Brookfield Asset Management to consolidate its two existing U.S. lines of credit of \$225 million into one \$300 million line at an interest rate of LIBOR plus 4.5%.

We believe that these arrangements provide us with a great deal of flexibility to take advantage of opportunities over the next several years in anticipation of a U.S. housing recovery.

We will continue to actively communicate with shareholders and potential shareholders about our Company. We do not believe we are being appropriately judged in the marketplace with the trading value of our common shares. While we have 50% of our assets in the U.S. market, we also have an extremely profitable Canadian franchise. This differentiates us from the other publicly traded land and housing companies. It is therefore up to management to ensure this message is clearly articulated to existing and future shareholders.

Thank you once again for your interest in our Company.

President & Chief Executive Officer

Note: This letter to shareholders contains forward-looking information within the meaning of Canadian provincial securities laws and “forward-looking statements” within the meaning of Section 27A of the U.S. Securities Act of 1933, as amended, Section 21E of the U.S. Securities Exchange Act of 1934, as amended, “safe harbor” provisions of the United States Private Litigation Reform Act of 1995 and in any applicable Canadian security regulations. Certain statements in this letter to shareholders that are not historical facts, including information concerning possible or assumed future results of operations of the company, the company’s future outlook, strategy and growth plans including acquisitions and lots controlled, enhanced liquidity, ability to take advantage of distressed opportunities, and those statements preceded by, followed by, or that include the words “believe,” “planned,” “anticipate,” “should,” “goals,” “expected,” “potential,” “estimate,” “targeted,” “scheduled” or similar expressions, constitute “forward-looking statements.” Undue reliance should not be placed on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which may cause the actual results to differ materially from the anticipated future results expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially from those set forward in the forward-looking statements include, but are not limited to: changes in general economic, real estate and other conditions; mortgage rate changes; availability of suitable undeveloped land at acceptable prices; adverse legislation or regulation; ability to obtain necessary permits and approvals for the development of our land; availability of labour or materials or increases in their costs; ability to develop and market our master-planned communities successfully; confidence levels of consumers; ability to raise capital on favourable terms; adverse weather conditions and natural disasters; relations with the residents of our communities; risks associated with increased insurance costs or unavailability of adequate coverage and ability to obtain surety bonds; competitive conditions in the homebuilding industry, including product and pricing pressures; and additional risks and uncertainties referred to in our filings with the securities regulators in Canada and the United States, many of which are beyond our control. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Residential Properties Portfolio

Our business is focused on land development and single-family and multi-family homebuilding in the markets in which we operate. Our assets consist primarily of land and housing inventory and investments in unconsolidated entities. Our total assets as at September 30, 2011 were \$2.5 billion.

As of September 30, 2011, we controlled 109,365 lots. Controlled lots include those we directly own and our share of those owned by unconsolidated entities. Our controlled lots provide a strong foundation for our future lot sales and homebuilding business as well as visibility on our future cash flow. Over 50% of our owned lots are entitled. The number of residential building lots we control in each of our primary markets as of September 30, 2011 follows:

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This interim report contains “forward-looking statements” within the meaning of applicable Canadian securities laws and United States federal securities laws. The words “may,” “believe,” “will,” “anticipate,” “expect,” “planned,” “estimate,” “project,” “future,” and other expressions that are predictions of or indicate future events and trends and that do not relate to historical matters identify forward-looking statements. Such statements reflect management’s current beliefs and are based on information currently available to management. The forward-looking statements in this interim report include, among others, statements with respect to:

- the current business environment and outlook;
- possible or assumed future results;
- ability to create shareholder value;
- business goals and strategy;
- strategies for shareholder value creation;
- the stability of home prices;
- effect of challenging conditions on us;
- factors affecting our competitive position within the homebuilding industry;
- ability to generate sufficient cash flow from our assets in 2011, 2012 and 2013 to repay maturing project specific financings;
- the visibility of our future cash flow;
- expected backlog and closings;
- sufficiency of our access to capital resources;
- the impact of foreign exchange on our financial performance;
- the timing of the effect of interest rate changes on our cash flows; and
- the effect on our business of existing lawsuits.

Reliance should not be placed on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which may cause the actual results to differ materially from the anticipated future results expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially from those set forth in the forward-looking statements include, but are not limited to:

- changes in general economic, real estate and other conditions;
- mortgage rate and availability changes;
- availability of suitable undeveloped land at acceptable prices;
- adverse legislation or regulation;
- ability to obtain necessary permits and approvals for the development of our land;
- availability of labour or materials or increases in their costs;
- ability to develop and market our master-planned communities successfully;
- ability to obtain regulatory approvals;
- confidence levels of consumers;
- ability to raise capital on favourable terms;
- our debt and leverage;
- adverse weather conditions and natural disasters;
- relations with the residents of our communities;
- risks associated with increased insurance costs or unavailability of adequate coverage;
- ability to obtain surety bonds;
- competitive conditions in the homebuilding industry, including product and pricing pressures;
- ability to retain our executive officers;
- relationships with our affiliates; and
- additional risks and uncertainties, many of which are beyond our control, referred to in this interim report and our other public filings with the applicable Canadian regulatory authorities and the United States Securities and Exchange Commission.

Except as required by law, we undertake no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise. However, any further disclosures made on related subjects in subsequent reports should be consulted.

About this Management's Discussion and Analysis

This management's discussion and analysis relates to the third quarter ended September 30, 2011, which reflects the three and nine month periods from July 1, 2011 to September 30, 2011 and January 1, 2011 to September 30, 2011, respectively, and has been prepared with an effective date of November 8, 2011. It should be read in conjunction with the interim consolidated financial statements and the related notes thereto included elsewhere in this interim report. All dollar amounts discussed herein are in U.S. dollars, unless otherwise stated. Amounts in Canadian dollars are identified as "C\$." The financial statements referenced herein have been prepared in accordance with accounting principles generally accepted in the United States of America. Overview

Brookfield Residential Properties Inc. (unless the context requires otherwise, references in this report to "we," "our," "us," "the Company" and "Brookfield Residential" refer to Brookfield Residential Properties Inc. and the subsidiaries through which it conducts all of its land development and homebuilding operations) is a publicly traded North American land development and homebuilding company listed on the New York Stock Exchange and the Toronto Stock Exchange under the symbol "BRP".

Brookfield Residential became a public company on March 31, 2011, pursuant to the contribution of the assets of Brookfield Office Properties' residential land and housing division and the merger of Brookfield Homes Corporation with a subsidiary of the Company (such transactions collectively referred to as the "merger"). Through these entities, Brookfield Residential has been developing land and building homes for over 50 years.

Brookfield Residential has developed a reputation for delivering first class master-planned communities and infill developments. Master-planned communities are new home communities that typically feature community centers, parks, recreational areas, schools, commercial areas and other amenities. In an infill development, Brookfield Residential develops land and constructs homes in previous urbanized areas on underutilized land.

Our unique approach to land development begins with our disciplined approach to acquiring land in the path of growth, creating value through the planning and entitlement process, developing and marketing residential lots and commercial sites and by working with industry partners who share the same vision and values. We will continue to grow this business over time by selectively acquiring land that either enhances our existing inventory or provides attractive projects that are consistent with our overall strategy and management expertise.

Through the activities of our operating subsidiaries, we develop land for our own communities and sell lots to other homebuilders and third parties. In our own communities, we may also design, construct and market single-family and multi-family homes. We currently focus primarily on the following markets: Canada, California and Central and Eastern U.S. Our Canadian operations operate primarily in the Alberta and Ontario markets. The California operations include our operations in Northern California (San Francisco, Bay Area and Sacramento), Southland / Los Angeles and San Diego / Riverside. The Central and Eastern U.S. operations include the Washington D.C., Colorado and Texas operations. In each of our markets, we operate through local business units which are involved in all phases of the planning and building of our master-planned communities and infill developments. These operations include sourcing and evaluating land acquisitions, site planning, obtaining entitlements, developing the land, product design, constructing, marketing and selling homes and homebuyer customer service. These business units may also sell land for the construction of, or construct commercial shopping centers in our communities.

Our approach to land acquisition in markets with barriers to entry caused by infrastructure or entitlement processes, but which have available land supply, differs than in markets with constrained land supplies and onerous approval processes. In markets with available land supply we prefer to purchase larger tracts of land with equity and then finance development against the land's value. These larger tracts afford us a true "master-planned" development opportunity that, following entitlement and assuming market conditions allow, creates a year-after-year stream of cash flow. In markets with a constrained supply of land, we typically purchase smaller infill or re-use parcels, or in some cases finished lots for housing.

We may construct homes on lots that have been developed by the Company or that are purchased from others. Having a home building operation allows us the opportunity to extract the value from the land and provides us with market information through our direct contact with the homebuyer. In markets where the Company has significant land holdings, home building is carried out on a portion of the land in specific market segments and the balance of lots are sold to and built-on by third party builders.

We classify our assets into three categories: land held for development; land under development and housing inventory. Costs attributable to land held for development include costs of acquiring land as well as major infrastructure costs to service the land within a community. These costs are not directly related to saleable lots. Once development of a phase begins, the associated costs with that phase are transferred from land held for development to land under development, which includes all

underlying costs that are attributable to the phase of saleable lots, including costs of the underlying land, roads, parks, and sewers. Included in housing inventory is associated land as well as construction costs.

In the nine months ended September 30, 2011, Brookfield Residential sold a total of 2,339 lots and closed 767 homes.

Current Business Environment

The residential marketplaces in our Canadian and U.S. markets varied significantly from one another during the three and nine months ended September 30, 2011. Volatility and uncertainty in the global marketplace provides a backdrop for a consumer who is understandably nervous, particularly in the U.S. The commodity-based markets in Alberta remain strong and we believe that they will continue to strengthen as more jobs are created to support the expanding oil and gas sector. In Ontario, constraints on land and infrastructure have created supply challenges resulting in increased demand for housing products in the Greater Toronto Area.

The U.S. housing market remains a challenge as a result of limited consumer mortgage financing availability and weak consumer confidence. Although we continue to view each operating segment independently, the common theme across all market areas in the U.S. is the lack of job creation resulting in a slow spring selling season in 2011. We believe that until we see some measureable progress on the job creation front, consumer confidence will remain fragile. However, we remain optimistic that when that confidence returns, we are well positioned to take advantage of the jobs that will be created and the resultant home sales. We believe our strong financial position and owning entitled and/or developed lots in supply-constrained markets places us in a solid position as the U.S. markets improve. In addition, we are equipped to take advantage of distressed opportunities that will inevitably present themselves over the next 12 to 18 months.

The 109,365 lots that we control in North America, provide a strong foundation for our future third-party lot sales and homebuilding business and provide visibility on our future cash flow. We believe that we add value to the lots we control through entitlements, development and the construction of homes.

Seasonality

We have historically experienced variability in our results of operations from quarter to quarter due to the seasonal nature of the homebuilding business and the timing of new community openings and the closing out of projects. We typically experience the highest rate of orders for new homes and lots in the first six months of the calendar year, although the rate of orders for new homes and lots is highly dependent upon the number of active communities. As new home deliveries trail orders for new homes by several months, we typically deliver a greater percentage of new homes in the second half of the year compared with the first half of the year. As a result, our revenues from sales of homes are generally higher in the second half of the year.

Net Income / (Loss)

(US\$ millions, except per share amounts)	Three Months Ended September 30		Nine Months Ended September 30

Diluted earnings / (loss) per share	\$ 0.19	\$ 0.29	\$ (0.19)	\$ 0.75

For the three months ended September 30, 2011 compared to the same period in 2010, net income declined by \$16 million. The decline in net income is primarily a result of lower gross margins of \$4 million and the interest expense of \$9 million on the notes payable to Brookfield Office Properties issued in connection with the merger.

The net loss of \$19 million for the nine months ended September 30, 2011 was primarily due to lower gross margins of \$14 million, the increase in interest expense of \$25 million and the income tax valuation allowance of \$71 million recorded in the first quarter of 2011. On the completion of the merger, we reviewed the ability of the Company on a combined entity basis to realize the U.S. deferred tax asset. The three-year cumulative loss of the U.S. operations of the combined Company, together with the continued uncertainty in the U.S. housing market, was evidence of a need for a valuation allowance against the U.S. deferred tax asset. The Company has the ability to reverse the valuation allowance in any future period upon utilization of the losses, which can be carried forward for up to 15 years, or when a valuation allowance is no longer deemed necessary.

A breakdown of the revenue and direct cost of sales is as follows:

Results of Operations – Land

Land revenue totalled \$116 million and \$359 million for the three and nine months ended September 30, 2011, an increase of \$25 million and \$112 million, respectively, when compared to the same periods in 2010. Our land revenue may vary significantly from period to period due to the timing and nature of land sales and such revenues are also affected by local market conditions. A significant portion of the increase in land revenue for the three and nine months ended September 30, 2011 is a result of a change in business practice in Alberta to implement title transfer on lot sales at the time of sale to the builder and not the ultimate consumer. This change in business practice resulted in a one-time increase in revenue of \$43 million and \$153 million for the three and nine months ended September 30, 2011, respectively.

A breakdown of the land revenue and gross margin for the three and nine months ended September 30, 2011 and 2010 is as follows:

Revenue	\$ 111	\$ 78	\$ 304	\$ 222
Direct cost of sales.....	57	30	161	96

The strength of our Canadian residential segment continued with an increase in lot closings and average lot selling prices. The lots closed were 704 and 2,076 for the three and nine months ended September 30, 2011, an increase of 127 lots and 477 lots, respectively, when compared to the same periods in 2010. The increase in revenue is primarily due to the non-recurring timing difference resulting from the change in business practice in Alberta and higher average lot selling prices for the three and nine months ended September 30, 2011. Land cost of sales increased \$27 million and \$65 million for the three and nine months ended September 30, 2011, respectively, when compared to the same periods in 2010. The increase in land cost of sales primarily relates to higher lot closings.

California

There were no lot sales in California for the three months ended September 30, 2011 or 2010. For the nine months ended September 30, 2011, revenue of \$43 million is a result of bulk lot sales totalling 158 lots that occurred in the second quarter of 2011. The increase in land cost of sales for the nine months ended September 30, 2011 is a result of such bulk lot sales.

Central and Eastern U.S.

Lot closings	34	149	105	280
Revenue	\$ 5	\$ 13	\$ 12	\$ 23
Direct cost of sales	6	13	14	28

A challenging market resulting in lower lot closings was partially offset by a change in product mix for the three and nine months ended September 30, 2011 which resulted in land revenues declining by \$8 million (62%) and \$11 million (47%), respectively, when compared to the same periods in 2010.

Results of Operations – Housing

Housing revenue was \$112 million and \$285 million for the three and nine months ended September 30, 2011, compared to \$149 million and \$408 million, respectively, for the same periods in 2010. The decline was the result of fewer home closings partially offset by higher average home selling prices for the three and nine months ended September 30, 2011.

A breakdown of housing revenue and gross margin for the three and nine months ended September 30, 2011 and 2010 is as follows:

A breakdown of our housing division's results from operations for our three operating segments is as follows:

Canada

	Three Months Ended September 30		Nine Months Ended September 30	
	2011	2010	2011	2010
<i>(US\$ millions, except unit activity)</i>

Revenue	\$ 75	\$ 85	\$ 173	\$ 208
Direct cost of sales	61	70	144	169

Housing revenue in Canada for the three and nine months ended September 30, 2011 decreased \$11 million and \$35 million, respectively, when compared to the same periods in 2010. The decrease in housing revenue is due to lower home closings as a result of inclement weather in the spring that has pushed expected closings into the fourth quarter of 2011. This was partially offset by increases in the average home selling price of 12% and 9%, respectively, due to product mix for the three and nine months ended September 30, 2011 compared to the same periods in 2010.

California

	Three Months Ended September 30		Nine Months Ended September 30

Home closings	61	65	161	250
Revenue	\$ 28	\$ 49	\$ 82	\$ 146
Direct cost of sales	26	40	74	122

Fewer home closings resulted from a reduced backlog entering into 2011 combined with a slow spring selling season in the California market. Housing revenue was \$28 million and \$82 million for the three and nine months ended September 30, 2011, a decrease of \$21 million (43%) and \$64 million (44%), respectively, when compared to the same periods in 2010. The decline is a result of lower home closings and product mix.

Central and Eastern U.S.

Home closings.....	16	34	70	139
Revenue.....	\$ 9	\$ 15	\$ 30	\$ 54

Housing revenue decreased \$6 million (40%) and \$24 million (44%) for the three and nine months ended September 30, 2011, respectively, when compared to the same periods in 2010. The market in the Central and Eastern U.S. segment continues to remain difficult where fewer home closings are the primary reason for the decrease in housing revenue. This is partially offset by an increase in the average home selling price during the period due to product mix. Cost of sales decreased \$5 million and \$19 million as a result of lower home closings for the three and nine months ended September 30, 2011, respectively, when compared to the same periods in 2010.

Home Sales Activity

Housing revenue was net of incentives of \$5 million and \$16 million for the three and nine months ended September 30, 2011, compared to \$6 million and \$19 million, respectively, for the same periods in 2010. Our incentives on homes closed by reportable segment were as follows:

Net new home orders for the three and nine months ended September 30, 2011 totalled 408 units and 1,265 units, an increase of 165 units and 180 units, respectively, or 68% and 17% when compared to the same periods in 2010. For the three months ended September 30, 2011, the increase relates to the strong Canadian market performance. The increase for the nine months ended September 30, 2011, is a result of continued strong Canadian market performance partially offset by a slow spring selling season in the U.S. Average sales per community were 4.0 units per month for the three months ended September 30, 2011 compared to 2.5 units per month for the same period in 2010. We were selling from 34 active housing communities at September 30, 2011 compared to 33 at September 30, 2010. The net new home orders for the three and nine months ended September 30, 2011 and 2010 by reportable segment were as follows:

	Three Months Ended September 30		Nine Months Ended September 30	
	2011	2010	2011	2010

Unconsolidated Entities.....	19	1	39	1
Total.....	<u>408</u>	<u>243</u>	<u>1,265</u>	<u>1,085</u>

Net new orders for any period represent the aggregate of all homes ordered by customers, net of cancellations.

Our backlog, which represents the number of new homes subject to sales contracts, at September 30, 2011 and 2010 by reportable segment was as follows:

	September 30, 2011		September 30, 2010	
	Units	\$ millions	Units	\$ millions
(US\$ millions, except unit activity)				
Canada	681	\$ 260	349	\$ 115

Central and Eastern U.S.	91	44	81	32
Unconsolidated Entities.....	14	—	1	—
Total.....	827	\$ 320	519	\$ 195

We expect all 827 units of our backlog to close in 2011 and 2012, subject to future cancellations. The units and value of our backlog at September 30, 2011 is higher when compared to the prior period due to stronger sales and some slowdown from inclement spring weather resulting in delays in construction of homes, primarily in Canada.

The cancellation rates for the three and nine months ended September 30, 2011 and 2010 by reportable segment were as follows:

Selling, General and Administrative Expense

Selling, general and administrative expense was \$27 million and \$72 million for the three and nine months ended September 30, 2011, compared to \$24 million and \$72 million, respectively, for the same periods in 2010. The components of the expense for the three and nine months ended September 30, 2011 and 2010 are summarized as follows:

	Three Months Ended September 30		Nine Months Ended September 30	
	2011	2010	2011	2010
(US\$ millions)				
General and administrative expense	\$ 15	\$ 15	\$ 51	\$ 44
Sales and marketing expense	8	8	22	26
Share-based compensation	1	2	(5)	2
Change in fair value of equity swap contracts	3	(1)	4	—
Total.....	\$ 27	\$ 24	\$ 72	\$ 72

The general and administrative expense for the three months ended September 30, 2011 increased \$3 million when compared to the same period in 2010 primarily due to a realized loss of \$2 million on the settlement of an equity swap contract. For the nine months ended September 30, 2011, the nil change in general and administrative expense relates to the fair value adjustment of the equity swap contracts partially offset by the decrease in the liability related to share-based compensation plans.

Equity in Earnings from Unconsolidated Entities

Equity in earnings from unconsolidated entities for the three and nine months ended September 30, 2011 totalled nil and \$4 million, compared to nil and nil, respectively, for the same periods in 2010.

Other (Expense) / Income

Other (expense) / income for the three and nine months ended September 30, 2011 was an expense of \$2 million and \$2 million, a decrease of \$5 million and \$12 million, respectively, when compared to the same periods in 2010. The decrease is a result of a reduction of interest and fee income for the three and nine months ended September 30, 2011.

The components of other (expense) / income for the three and nine months ended September 30, 2011 and 2010 are summarized as follows:

	Three Months Ended September 30		Nine Months Ended September 30

Foreign Exchange

The financial results of our Canadian operations are translated into U.S. dollars for financial reporting purposes. Foreign currency translation gains and losses are recorded as the exchange rate between the two currencies fluctuates. These gains and losses are included in comprehensive income and accumulated other comprehensive income.

The translation of our Canadian results yields an expense of \$4 million for the third quarter of 2011 compared to a gain of \$26 million in the same quarter of 2010. Foreign translation consequently results in a \$30 million reduction of quarter over quarter comprehensive income. While year to date comprehensive income is similarly impacted, a \$10 million foreign currency translation gain for the nine months ended September 30, 2011, compares to a \$17 million gain for the comparable 2010 period, resulting in the benefit in 2011 being \$7 million less than in 2010.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations is based upon the consolidated financial statements of Brookfield Residential, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make assumptions, estimates and judgments that affect the carrying amounts of assets, liabilities, revenues and expenses, and the related disclosure of contingent assets and liabilities. Our actual results may differ materially from these estimates under different assumptions or conditions.

Our most critical accounting policies are those that we believe are the most important in portraying our financial condition and results of operations, and require the most subjectivity and estimates by our management. A summary of our significant accounting policies, including the critical accounting policies discussed below, is provided in the notes to the consolidated financial statements of the Company included elsewhere in this interim report.

Carrying Values

In accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 360 *Property, Plant and Equipment*, housing and land assets that we own directly and through unconsolidated entities are reviewed for recoverability on a regular basis and whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability is measured by comparing the carrying amount of an asset to future undiscounted cash flows expected to be generated by the asset. To arrive at the estimated fair value of housing and land inventory impaired, we estimate the cash flow for the life of each project. Specifically, on a housing project, we evaluate the margins on homes that have been closed, margins on sales contracts which are in backlog and estimated margins with regard to future home sales over the life of the project. On a land project, we estimate the timing of future land sales, the estimated revenue per lot, as well as estimated margins with respect to future land sales. For the housing and land inventory, we continuously evaluate projects where inventory is turning over more slowly than expected or whose average sales price and margins are declining and are expected to continue to decline. These projections take into account the specific business plans for each project and management's best estimate of the most probable set of economic conditions anticipated to prevail in the market area. Such projections generally assume current home selling prices, cost estimates and sales rates for short-term projects are consistent with recent sales activity. For longer-term projects, planned sales rates for 2011 and 2012 assume recent sales activity and normalized sales rates beyond 2012. We identify potentially impaired housing and land projects based on these quantitative factors as well as qualitative factors obtained from the local market areas. If the future undiscounted cash flows are less than the carrying amount, the asset is considered to be impaired and is then written down to fair value less estimated selling costs using a discounted cash flow methodology which incorporates market based assumptions.

All projects were reviewed for impairment charges and option write-offs for the nine months ended September 30, 2011 and no impairment charges were required. This is consistent with the nine months ended September 30, 2010.

The locations of the projects reviewed were as follows:

(Number of projects)	
Canada.....	46
California.....	29
Central and Eastern U.S.....	26
Total.....	<u>101</u>

We have also entered into a number of option contracts to acquire land or lots in the future in accordance with specific terms and conditions. A majority of our option contracts require a non-refundable cash deposit based on a percentage of the purchase price of the property. The option contracts are recorded at cost. In determining whether to pursue an option contract, we estimate the option primarily based upon the expected cash flows from the optioned property. If our intent is to no longer pursue an option contract, we record a charge to earnings of the deposit amounts and any other related pre-acquisition entitlement costs in the period the decision is made.

Revenue Recognition

Revenues from the sale of homes are recognized when title passes to the purchaser upon closing, wherein all proceeds are received or collectability is evident. Land sales are recognized when title passes to the purchaser upon closing, all material conditions of the sales contract have been met and a significant cash down payment or appropriate security is received and collectability is evident.

Capitalized Costs

Our housing and land inventory on our consolidated balance sheet includes the costs of acquiring land, development and construction costs, interest, property taxes and overhead directly related to the development of the land and housing. Direct costs are capitalized to individual homes and lots and other costs are allocated to each lot in proportion to our anticipated revenue.

Income Taxes

Income taxes are accounted for in accordance with ASC Topic 740 *Income Taxes*. Under ASC Topic 740, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities, and are measured by using enacted tax rates expected to apply to taxable income in the years in which those differences are expected to reverse.

In accordance with the provisions of ASC Topic 740, the Company assesses, on a quarterly basis, its ability to realize its deferred tax assets. In determining the need for a valuation allowance, the Company considers the following significant factors: an assessment of recent years' profitability and losses, which considers the nature, frequency and severity of current and cumulative losses and its forecasts or expectation of profits based on margins and volumes expected to be realized (which are based on current pricing and volume trends). The assessment of recent years' losses and the resulting three-year cumulative loss of the U.S. operations of the Company, together with the uncertainty in the U.S. housing market, was evidence of the need for a valuation allowance against the Company's net U.S. deferred tax asset. Refer to Note 9 of our interim financial statements included elsewhere in this report for further discussion.

ASC Topic 740 clarifies the accounting for uncertainty in income taxes recognized and prescribes a recognition threshold and measurement for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It requires that a company determine whether it is more-likely-than-not that a position will be sustained upon examination by taxation authorities, based upon the technical merits of the position. A tax position that meets the more-likely-than-not threshold is then measured to determine the amount of the tax benefit to recognize in the financial statements.

The Company recognizes interest and penalties accrued related to unrecognized tax benefits or liabilities in income tax (expense) / recovery.

Derivative Financial Instruments

We revalue our equity swap contract each reporting period. The fair value of the equity swap contract is determined based on the notional amount, share price, the number of underlying shares and the three month LIBOR rate. We performed a sensitivity analysis of the estimated fair value and the impact to the financial statements using alternative reasonably likely assumptions on September 30, 2011 and the impact to the financial statements was nominal. However, future fluctuations in share price could have a significant impact on net income.

The interest rate swaps are revalued at each reporting period. The fair value of interest rate swaps is determined based on the notional amount, term to maturity and the three month LIBOR rate. The LIBOR rates vary depending on the term to maturity and the conditions set out in the underlying swap agreements.

Recent Accounting Pronouncements

There have been no new accounting pronouncements issued that are expected to have a significant impact on the Company's financial statements.

Liquidity and Capital Resources

Financial Position

The following is a summarized balance sheet as of September 30, 2011 and December 31, 2010:

Assets

Our assets as of September 30, 2011 totalled \$2,544 million, a decrease of \$92 million compared to December 31, 2010. The decrease was due primarily to the translation of the Canadian operations' assets with the lower exchange rate at September 30, 2011 and the previously disclosed valuation allowance against the U.S. deferred tax asset of \$71 million recorded in the first quarter of 2011. Our land and housing inventory and investments in unconsolidated entities are our most significant assets with a combined book value of \$2,271 million, or approximately 89% of our total assets. Our land and housing assets include land under and held for development, lots ready for construction, homes completed and under construction and model homes.

A summary of our lots owned, excluding lot options, and their stage of development at September 30, 2011 compared with December 31, 2010 follows:

	September 30 2011	December 31 2010
Lots for future development.....	90,290	90,123

Project Specific and Other Financings

Our project specific and other financings as of September 30, 2011 were \$843 million, a decrease of \$182 million from December 31, 2010. Project specific and other financings as of September 30, 2011 consisted of \$634 million related to project specific financings and bank indebtedness and \$208 million related to amounts drawn on facilities with subsidiaries of our largest shareholder, Brookfield Asset Management Inc. Our project specific and other financings represent construction and development loans and facilities that are used to fund the operations of our communities as new homes are constructed. Interest charged under project specific and other financings include LIBOR and prime rate pricing options. As of September 30, 2011, the weighted average interest rate on our project specific and other financings was 5%.

The stated maturities of our project specific and other financings are as follows:

(US\$ millions)	Payment Due by Period				
	Total	Less than 1 year	1 – 3 Years	3 – 5 Years	More than 5 years
Canada	\$ 437	\$ 26	\$ 402	\$ 1	\$ 8

Total.....	<u>\$ 843</u>	<u>\$ 76</u>	<u>\$ 752</u>	<u>\$ 7</u>	<u>\$ 8</u>

A total of \$76 million of our project specific and other financings matures prior to the end of 2011. The debt maturing in 2011 is expected to be repaid from home and/or lot deliveries over this period or extended. Our net debt to total capitalization ratio as of September 30, 2011, which we define as total interest-bearing debt less cash divided by total interest-bearing debt less cash plus equity and other interests in consolidated subsidiaries was 57%, compared to 44% at December 31, 2010. The increase was due to the addition of the notes payable.

The debt maturing in 2011, 2012 and 2013 onwards is expected to be repaid from home and/or lot deliveries over this period or extended. Additionally, as of September 30, 2011, we had project specific debt and bank indebtedness of \$154 million that was available to complete land development and construction activities. The "Cash Flow" section below discusses future available capital resources should proceeds from our future home and/or lot closings not be sufficient to repay our debt obligations.

Amounts due to affiliates includes \$125 million on an unsecured revolving operating facility and \$83 million on an unsecured revolving acquisition and operating facility, both with subsidiaries of our largest shareholder, Brookfield Asset Management Inc. The revolving operating facility matures December 2013, bears interest at LIBOR plus 3.5% and was fully drawn upon at September 30, 2011. The revolving acquisition and operating facility is in a principal amount not to exceed \$100 million. This facility matures December 2012, currently bears interest at 14% and could be fully drawn upon without violation of any covenants. The covenants of our project specific and other financings are as follows:

a) Project specific financings totalling \$140 million requires Brookfield Homes Holdings Inc., an indirect wholly-owned subsidiary of the Company, to maintain a tangible net worth of at least \$325 million, a net indebtedness to capitalization ratio of no greater than 65% and a net indebtedness to tangible net worth ratio of no greater than 2.50 to 1. 	Covenant	Actual as at September 30 2011
Minimum stockholders' equity (US\$ millions)	\$ 300	\$ 467
Net debt to capitalization	70%	42%

Subsequent to September 30, 2011, the Company amended the terms of its bank indebtedness with Brookfield Asset Management Inc. Please refer to the Subsequent Event section located elsewhere in the interim report.

Notes Payable

Notes payable includes two promissory notes payable to Brookfield Office Properties, a C\$265 million (US\$252 million) senior note and a C\$215 million (US\$205 million) junior subordinated note. The senior note bears a fixed rate of interest of 6.5% and is payable in full on December 31, 2015 with C\$50 million payable on account of principal on the last business day of 2012, 2013 and 2014, with the balance of C\$115 million payable on December 31, 2015. The C\$215 million junior subordinated note bears a fixed rate of interest of 8.5% and is payable in full on December 31, 2020. Subsequent to September 30, 2011, the Company amended the terms of the C\$265 million senior note. Please refer to the Subsequent Events section located elsewhere in the interim report.

At September 30, 2011, our notes payable due to Brookfield Office Properties Inc. required Brookfield Residential Properties Inc. to maintain minimum shareholders' equity of \$750 million and a consolidated net debt to capitalization ratio of no greater than 65%. At September 30, 2011, we were in compliance with all of our covenants relating to notes payable. The following are computations of Brookfield Residential's minimum shareholders' equity and net debt to capitalization ratio covenants:

	Covenant	Actual as at September 30 2011
Minimum shareholders' equity (US\$ millions).....	\$ 750	\$ 947
Net debt to capitalization	65%	57%

Cash Flow

Our principal uses of working capital include purchases of land, land development and home construction. Cash flows for each of our communities depend upon the applicable stage of the development cycle and can differ substantially from reported earnings. Early stages of development require significant cash outlays for land acquisitions, site approvals and entitlements,

construction of model homes, roads, certain utilities and other amenities and general landscaping. As these costs are capitalized, earnings reported for financial statement purposes during such early stages may significantly exceed cash flows. Later, cash flows can exceed earnings reported for financial statement purposes, as cost of sales includes charges for substantial amounts of previously expended costs.

We believe that we currently have sufficient access to capital resources and will continue to use our available capital resources to fund our operations. Our future capital resources include cash flow from operations, borrowings under project and other credit facilities and proceeds from potential future debt issues or equity offerings, if required.

The net cash flows for the three and nine months ended September 30, 2011 are as follows:

	Nine Months Ended September 30	
	2011	2010
(US\$ millions)		
Cash flows (used in) / from operating activities	\$ (9)	\$ 109
Cash flows used in investing activities	(4)	(44)
Cash flows from / (used in) financing activities	10	(72)

Cash used in operating activities during the nine months ended September 30, 2011 totalled \$9 million compared with cash from operations of \$109 million for the same period in 2010. For the nine months ended September 30, 2011, 767 homes were delivered and 2,339 lots were sold.

Cash used by our investing activities for the nine months ended September 30, 2011 was \$4 million, an increase of \$40 million when compared to the same period in 2010. The increase was primarily a result of an increase in distributions from unconsolidated entities, and lower investments in unconsolidated entities, partially offset by an increase in restricted cash. As a result, cash flows from operating and investing activities includes \$87 million of acquisitions.

Cash provided by our financing activities for the nine months ended September 30, 2011 was \$10 million, compared with cash used by financing activities of \$72 million for the same period in 2010. The cash provided in the nine months ended September 30, 2011 was primarily from net drawings under project specific and other financings of \$44 million offset by cash used to pay the 2010 preferred stock dividends of \$10 million paid in the first quarter of 2011 and \$19 million to fund the repurchase of common stock for the escrowed restricted stock plan described in Note 10(a) of the consolidated financial statements included elsewhere in this interim report.

Contractual Obligations and Other Commitments

A summary of our contractual obligations and purchase agreements as of September 30, 2011 are as follows:

	Payment Due by Period				
	Total	Less than 1 year	1 – 3 Years	3 – 5 Years	More than 5 years
(US\$ millions)					
Project specific and other financings ⁽¹⁾	\$ 843	\$ 76	\$ 752	\$ 7	\$ 8
Operating lease obligations ⁽²⁾	26	2	10	7	7
Purchase agreements ⁽³⁾	68	7	55	6	—
Total ⁽⁴⁾	\$ 937	\$ 85	\$ 817	\$ 20	\$ 15

(1) Amounts are included on the consolidated balance sheets. See Note 6 to the consolidated financial statements for additional information regarding project specific and other financings and related matters.

(2) Amounts relate to non-cancellable operating leases involving office space, design centres and model homes.

(3) Amounts represent our expected acquisition of land under options or purchase agreements. See Note 14 to the consolidated financial statements for additional information regarding purchase agreements.

(4) Amounts do not include interest due to the floating nature of our debt. See Note 6 to the consolidated financial statements for additional information regarding our floating rate debt.

Shareholders' Equity

At November 8, 2011, 99,342,718 common shares and 70,002 preferred shares in the capital of the Company were issued and outstanding. In addition, Brookfield Residential has a stock option plan under which key officers and employees are granted options to purchase Brookfield Residential common shares. Each option granted can be exercised for one common share. At November 8, 2011, 3,173,423 options were outstanding under the stock option plan.

Off-Balance Sheet Arrangements

In the ordinary course of business, and where market conditions permit, we use land and lot option contracts and unconsolidated entities to acquire control of land to mitigate the risk of declining land values. Option contracts for the purchase of land permit us to control the land for an extended period of time until options expire. This reduces our financial risk associated with land holdings. As of September 30, 2011, we had \$59 million of primarily non-refundable option deposits and advanced costs. The total exercise price of these options was \$212 million. Pursuant to the guidance now incorporated in ASC Topic 810 *Consolidation*, as described in Note 2 to our consolidated financial statements included elsewhere in this interim report, we have consolidated \$16 million of these option contracts where we consider we have the majority economic interest in the assets held under the options. Please refer to Note 2 of our consolidated financial statements included elsewhere in this interim report for additional information about our lot options.

We also own 3,727 lots and control under option 2,206 lots through our proportionate share of unconsolidated entities. As of September 30, 2011, our investment in unconsolidated entities totalled \$142 million. We have provided varying levels of guarantees of debt in our unconsolidated entities. As of September 30, 2011, we had completion guarantees of \$5 million and limited maintenance guarantees of \$12 million with respect to debt in our unconsolidated entities. During the nine months ended September 30, 2011, we did not make any loan re-margin repayments on the debt in our unconsolidated entities. Please refer to Note 3 to our consolidated financial statements included elsewhere in this interim report for additional information about our investments in unconsolidated entities.

We obtain letters of credit, performance bonds and other bonds to support our obligations with respect to the development of our projects. The amount of these obligations outstanding at any time varies in accordance with our development activities. If these letters of credit or bonds are drawn upon, we will be obligated to reimburse the issuer of the letter of credit or bonds. As of September 30, 2011, we had \$49 million in letters of credit outstanding and \$172 million in performance bonds for these purposes. The costs to complete related to our letters of credit and performance bonds are \$27 million and \$87 million, respectively.

Transactions Between Related Parties

There are agreements among our affiliates to which we are a party or subject to including a name license, the lease of office space, two unsecured revolving credit facilities, two notes payable and certain guarantee and indemnity agreements. Related parties include the directors, executive officers, director nominees or 5% shareholders, and their respective immediate family members. The Company's significant related party transactions during the period ended September 30, 2011 were:

- Notes payable of \$457 million (December 31, 2010 – nil) are due to Brookfield Office Properties. The notes consist of a C\$265 million senior unsecured promissory note and a C\$215 million junior unsecured promissory note. For the three and nine months ended September 30, 2011, interest of \$9 million and \$18 million, respectively (2010 – nil and nil, respectively) was incurred relating to these facilities.
- Unsecured revolving operating facility in the aggregate principal amount of \$125 million (December 31, 2010 – \$100 million) with a subsidiary of Brookfield Asset Management Inc. For the three and nine months ended September 30, 2011, interest of \$1 million and \$3 million, respectively (2010 – \$1 million and \$3 million, respectively) was incurred relating to this facility.
- Unsecured operating and acquisition facility in the aggregate principal amount of \$83 million (December 31, 2010 – \$60 million) with a subsidiary of Brookfield Asset Management Inc. For the three and nine months ended September 30, 2011, interest of \$3 million and \$8 million, respectively (2010 – \$1 million and \$4 million, respectively) was incurred relating to this facility.
- A subsidiary of the Company entered into an agreement to purchase two million common shares of the Company from Brookfield Asset Management Inc. in order to fund an escrowed restricted stock plan without dilution to shareholders on June 23, 2011. The total consideration relating to the purchase of the shares was \$19 million (2010 – nil).

In addition, one of our directors, Robert Stelzl, serves as a director of a company affiliated with us.

Subsequent Events

On November 2, 2011, the Company agreed to amend the terms of its C\$265 million of transaction debt such that the originally scheduled principal payments of C\$50 million during each of the next three years will be due along with the final payment of C\$115 million on December 31, 2015. These extended payments will bear interest from the date of the amendment at a fixed rate of 7.5%.

On November 2, 2011, Brookfield Residential reached an agreement with Brookfield Asset Management Inc. to consolidate its two existing lines of credit of \$225 million into one \$300 million line at an interest rate of LIBOR plus 4.5%.

Quantitative and Qualitative Disclosures about Market Risk

Exchange Rates

We conduct business in both Canadian and U.S. dollars, so we are exposed to currency risks. Our cash flows from Canadian and U.S. operations are exposed to foreign exchange risk as sales and operating expenses are denominated in local currencies.

We have operations with a Canadian dollar functional currency, whose net assets are exposed to foreign currency translation risk. This currently is managed in part through our Canadian dollar denominated debt as a hedge against these operations. As at September 30, 2011, C\$480 million of debt was designated in this manner.

Interest Rates

We are exposed to financial risks that arise from the fluctuations in interest rates. Our interest-bearing assets and liabilities are mainly at floating rates, so we would be negatively impacted, on balance, if interest rates increase. In addition, at September 30, 2011, we had interest rate swap contracts totalling \$150 million at an average rate of 5% per annum. Based on our net debt levels as of September 30, 2011, a 1% change in interest rates would have either a negative or positive effect of approximately \$6 million on our cash flows.

Our interest rate swaps are not designed as hedges under ASC Topic 815 *Derivatives and Hedging*. We are exposed to market risk associated with changes in the fair values of the swaps, and such changes must be reflected in our consolidated statements of operations. As of September 30, 2011, the fair value of the interest rate swaps totalled a liability of \$16 million.

(a) Basis of Presentation

Brookfield Residential Properties Inc. (the "Company" or "Brookfield Residential") was incorporated in Ontario, Canada and became a public company on March 31, 2011 pursuant to the contribution of Brookfield Office Properties' residential land and housing division and the merger of Brookfield Homes Corporation ("Brookfield Homes") with a subsidiary of the Company (such transactions collectively referred to as the "merger"). This transaction was deemed to take place between entities under common control and, as a result, has been accounted for as continuity of interest using the carried amount of assets and liabilities of both Brookfield Office Properties' residential land and housing division and Brookfield Homes for comparative purposes. The Company began trading on the New York Stock Exchange and the Toronto Stock Exchange under the symbol "BRP" on April 1, 2011. The Company maintains a head office at 4906 Richard Road S.W., Calgary, Alberta, T3E 6L1.

These unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and include the consolidated accounts of Brookfield Residential and its subsidiaries and investments in unconsolidated entities and variable interest entities in which the Company is the primary beneficiary.

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. GAAP for interim financial information. In the opinion of management, all adjustments necessary for fair presentation of the accompanying unaudited consolidated financial statements have been made.

The Company historically has experienced, and expects to continue to experience, variability in quarterly results. The consolidated statements of operations for the three and nine months ended September 30, 2011 are not necessarily indicative of the results to be expected for the full year. All dollar amounts discussed herein are in U.S. dollars, unless otherwise stated. Amounts in Canadian dollars are identified as "C\$."

(b) Land and Housing Inventory

(i) Revenue recognition: Land sales are recognized when title passes to the purchaser upon closing, all material conditions of the sales contract have been met and a significant cash down payment or appropriate security is received and collectability is evident. Revenues from the sale of homes are recognized when title passes to the purchaser upon closing, wherein all proceeds are received or collectability is evident.

(ii) Carrying values: In accordance with the Accounting Standards Codification ("ASC") Topic 360 *Property, Plant and Equipment*, land and housing assets the Company owns directly and through unconsolidated entities are reviewed for recoverability on a regular basis and whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability is measured by comparing the carrying amount of an asset to future undiscounted cash flows expected to be generated by the asset. To arrive at the estimated fair value of land and housing inventory, the Company estimates the cash flow for the life of each project. Specifically, on a land project, the Company estimates the timing of future land sales, the estimated revenue per lot, as well as estimated margins with respect to future land sales. On a housing project, the Company evaluates the margins on homes that have been closed, margins on sales contracts which are in backlog and estimated margins with regard to future home sales over the life of the project. For the land and housing inventory, the Company continuously evaluates projects where inventory is turning over more slowly than expected or whose average sales price and margins are declining and are expected to continue to decline. These projections take into account the specific business plans for each project and management's best estimate of the most probable set of economic conditions anticipated to prevail in the market area. Such projections generally assume current home selling prices, cost estimates and sales rates for short-term projects are consistent with recent sales activity. For longer-term projects, planned sales rates for 2011 and 2012 assume recent sales activity and normalized sales rates beyond 2012. Management identifies potentially impaired land and housing projects based on these quantitative factors as well as qualitative factors obtained from the local market areas. If the future undiscounted cash flows are less than the carrying amount, the asset is considered to be impaired and is then written down to fair value less estimated selling costs using a discounted cash flow methodology which incorporates market participant assumptions.

The Company has also entered into a number of option contracts to acquire land or lots in the future in accordance with specific terms and conditions. The majority of the option contracts require a non-refundable cash deposit based on a percentage of the purchase price of the property. Option contracts are recorded at cost. In determining whether to pursue an option contract, the Company estimates the option primarily based upon the expected cash flows from the optioned property. If the intent is to no longer pursue an option contract, the Company records a charge to earnings of the deposit amounts and any other related pre-acquisition entitlement costs in the period the decision is made.

(iii) Capitalized costs: Capitalized costs include the costs of acquiring land, development and construction costs, interest, property taxes and overhead related to the development of land and housing. Direct costs are capitalized to individual homes and lots and other costs are allocated to each lot in proportion to the Company's anticipated revenue.

(c) Unconsolidated Entities

The Company participates in a number of unconsolidated entities in which it has less than a controlling interest to develop and sell land to the unconsolidated entity members and other third parties. These unconsolidated entities are accounted for using the equity method. The Company recognizes its proportionate share of the earnings from the sale of lots to other third parties. The Company does not recognize earnings from the purchase of lots from its unconsolidated entities and reduces its cost basis of the land purchased accordingly.

(d) Use of Estimates

The preparation of financial statements, in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect the carrying amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from these estimates.

(e) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, demand deposits, and all highly liquid short-term investments with original maturity less than 90 days. The carrying value of these investments approximates their fair value.

(f) Restricted Cash

Restricted cash includes cash held on deposit with a financial institution in the form of collateral, required by terms outlined in the total return swap transaction entered into by the Company and the cash collateralization of development letters of credit at the completion of the merger.

(g) Income Taxes

Income taxes are accounted for in accordance with ASC Topic 740 *Income Taxes*. Under ASC Topic 740, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities, and are measured by using enacted tax rates expected to apply to taxable income in the years in which those differences are expected to reverse.

In accordance with the provisions of ASC Topic 740, the Company assesses, on a quarterly basis, its ability to realize its deferred tax assets. In determining the need for a valuation allowance, the Company considers the following significant factors: an assessment of recent years' profitability and losses which considers the nature, frequency and severity of current and cumulative losses and its forecasts or expectation of profits based on margins and volumes expected to be realized (which are based on current pricing and volume trends). The assessment of recent years' losses and the resulting three-year cumulative loss of the U.S. operations of the Company together with the uncertainty in the U.S. housing market was evidence of the need for a valuation allowance against its net U.S. deferred tax asset. See Note 9 for further discussion.

ASC Topic 740 clarifies the accounting for uncertainty in income taxes recognized and prescribes a recognition threshold and measurement affiliates for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It requires that a company determine whether it is more-likely-than-not that a position will be sustained upon examination by taxation authorities, based upon the technical merits of the position. A tax position that meets the more-likely-than-not threshold is then measured to determine the amount of the tax benefit to recognize in the financial statements.

The Company recognizes interest and penalties accrued related to unrecognized tax benefits or liabilities in income tax expense.

(h) Share-Based Compensation

The Company accounts for stock option grants and deferred share unit grants in accordance with ASC Topic 718 *Compensation-Stock Compensation*. All stock options granted have exercise prices equal to the market value of the common shares on the date of the grant, determined in accordance with the plans. Participants in the option plan can exercise their options to purchase shares at the exercise price. The option to elect to receive cash equal to the difference between the exercise price and the current market price was eliminated in 2009 in conjunction with the modification of the Brookfield Homes stock option plan.

BROOKFIELD RESIDENTIAL PROPERTIES INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(all dollar amounts are in thousands of U.S. dollars)

The Company records the fair value of options using a Black-Scholes option pricing model. Options have been recorded in additional paid-in-capital in 2011 as a result of an amendment to existing stock option awards made under the Brookfield Homes 2002 stock option plan and the approval and adoption of the Brookfield Residential stock option plan. In prior years, options were recorded in accounts payable and other liabilities. In addition, the Company records the deferred share units as a liability as disclosed in accounts payable and other liabilities. See Note 10 "Share-Based Compensation" for further discussion.

(i) Other Comprehensive Income

The Company adheres to U.S. GAAP reporting requirements with respect to the presentation and disclosure of other comprehensive income. Any foreign exchange gains or losses are recorded in comprehensive income for each of the periods presented.

(j) Earnings / (Loss) Per Share

Earnings / (loss) per share is computed in accordance with ASC Topic 260 *Earnings Per Share*. Basic earnings / (loss) per share is calculated by dividing net earnings / (loss) attributable to Brookfield Residential less preferred share dividends by the weighted average number of common shares outstanding for the year. Diluted earnings / (loss) per share is calculated by dividing net income / (loss) less preferred share dividends by the average number of common shares outstanding including all dilutive potentially issuable shares under various stock option plans.

(k) Advertising Costs

The Company expenses advertising costs as incurred. For the three and nine months ended September 30, 2011, the Company incurred advertising costs of \$8.0 million and \$22.2 million, respectively (2010 – \$8.3 million and \$25.7 million, respectively.)

(l) Warranty Costs

Estimated future warranty costs are accrued and charged to cost of sales at the time the revenue associated with the sale of each home is recognized. Factors that affect the Company's warranty liability include the number of homes sold, historical and anticipated rates of warranty claims, and cost per claim. Costs are accrued based upon historical experience.

(m) Variable Interest Entities

The Company accounts for its variable interest entities ("VIEs") in accordance with ASC Topic 810 *Consolidation*. The decision whether to consolidate a VIE begins with establishing that a VIE exists. A VIE exists when either the total equity investment at risk is not sufficient to permit the entity to finance its activities by itself, or the equity investor lacks one of three characteristics associated with owning a controlling financial interest. Those characteristics are the power to direct the activities of an entity that most significantly impacts the entity's economic performance, the obligation to absorb the expected losses of the entity, and the right to receive the expected residual returns of the entity. The entity that has both the power to direct the activities of a VIE that most significantly impact the VIE's economic performance and the obligation to absorb losses or the right to receive benefits of the VIE that could potentially be significant to the VIE is considered to have a controlling financial interest in a VIE and is required to consolidate such entity. The Company has determined it has a controlling financial interest in certain VIEs which are included in these financial statements as a component of "Land and housing inventory," with the interests of others included in accounts payable and other liabilities. See Notes 2 and 3 for further discussion on the consolidation of land option contracts and unconsolidated entities.

(n) Derivative Financial Instruments and Hedging Activities

The Company accounts for its derivative and hedging activities in accordance with ASC Topic 815, *Derivatives and Hedging*. ASC Topic 815 requires the Company to recognize all derivative instruments at their fair values as either assets or liabilities on its balance sheet. The accounting for changes in fair value (i.e. gains or losses) of a derivative instrument depends on whether the Company has designated it, and whether it qualifies, as part of a hedging relationship and on the type of hedging relationship. For those derivative instruments that are designated and qualify as hedging instruments, the Company must designate the hedging instrument, based upon the exposure being hedged, as a fair value hedge, a cash flow hedge or a hedge of a net investment in a foreign operation. For derivative instruments that are designated and qualify as a cash flow hedge (i.e. hedging the exposure to variability in expected future cash flows that are attributable to a particular risk), the effective portion of the gain or loss on the derivative instrument is reported as a component of other comprehensive income and reclassified into earnings in the same line item associated with the forecasted transaction in the same period or periods during which the hedged transaction affects earnings (i.e. in "interest expense" when the hedged transactions are interest cash flows associated with floating-rate debt). The remaining gain or loss on the derivative instrument in excess of the cumulative changes in the present value of future cash flows of the hedged item, if any, is recognized in the realized and unrealized gain / (loss) on

BROOKFIELD RESIDENTIAL PROPERTIES INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(all dollar amounts are in thousands of U.S. dollars)

derivatives in current earnings during the period of change. For derivative instruments not designated as hedging instruments, the gain or loss is recognized in realized and unrealized gain / (loss) on derivatives in the current earnings during the period of change. Income and/or expense from interest rate swaps are recognized as an adjustment to other (expense) / income. The Company accounts for income and expense from interest rate swaps over the period to which the payments and/or receipts relate.

(o) *Recent Accounting Pronouncements*

There have been no new accounting pronouncements issued that are expected to have a significant impact on the Company's financial statements.

(p) *Reclassification*

Certain prior period amounts in the consolidated balance sheets have been reclassified to conform with the September 30, 2011 presentation. Specifically, consolidated land inventory not owned, which had previously been shown as a separate line, is now shown as a component of land and housing inventory. Other revolving financings, which had previously been shown as a separate line, are now shown as a component of project specific and other financings. These reclassifications had no impact on the Company's results from operations.

Note 2. Land and Housing Inventory

Land and housing inventory includes land under and held for development which will be used in the Company's homebuilding operations or sold as building lots to other homebuilders, homes completed and under construction and lots ready for construction and model homes. The following summarizes the components of land and housing inventory:

	September 30	December 31
	2011	2010
Land and land under development	\$ 1,847,781	\$ 1,974,497
Housing inventory	253,933	190,882
Model homes	27,619	28,568
Total	<u>\$ 2,129,333</u>	<u>\$ 2,193,947</u>

The Company capitalizes interest which is expensed as housing units and building lots are sold. For the three and nine months ended September 30, 2011, interest incurred and capitalized by the Company was \$8.1 million and \$28.5 million, respectively (2010 – \$13.6 million and \$38.2 million, respectively). Capitalized interest expensed as direct cost of sales for the same periods was \$18.7 million and \$50.1 million, respectively (2010 – \$11.9 million and \$35.6 million, respectively).

In the ordinary course of business, the Company has entered into a number of option contracts to acquire land or lots in the future in accordance with specific terms and conditions and the Company will advance deposits to secure these rights. The Company is required by ASC Topic 810 *Consolidation* to qualitatively assess whether it is the primary beneficiary of these options based on whether it has the power over the significant activities of the VIE and an obligation to absorb losses or the right to receive benefits that could be potentially significant to the VIE. The Company has evaluated its option contracts in accordance with this guidance and determined that, for those entities considered to be VIEs, it is the primary beneficiary of options with an aggregate exercise price of \$24.7 million (December 31, 2010 – \$25.2 million), which are required to be consolidated. In these cases, the only asset recorded is the Company's exercise price for the option to purchase, with an increase in accounts payable and other liabilities of \$24.7 million (December 31, 2010 – \$25.2 million) for the assumed third-party investment in the VIE. Where the land sellers are not required to provide the Company financial information related to the VIE, certain assumptions by the Company were required in its assessment as to whether or not it is the primary beneficiary.

Land and housing inventory includes non-refundable deposits and other entitlement costs totalling \$59.3 million (December 31, 2010 – \$49.5 million) in connection with options that are not required to be consolidated in terms of the guidance incorporated in ASC Topic 810 *Consolidation*. The total exercise price of these options is \$211.7 million (December 31, 2010 – \$151.6 million), including the non-refundable deposits and other entitlement costs identified above. The number of lots in which the Company has obtained an option to purchase, excluding those already consolidated and those held through unconsolidated entities and their respective dates of expiry and aggregate exercise prices follow:

Year of Expiry	Number	Total Exercise
	of Lots	Price
2011	173	\$ 42,298
2012	130	42,097
Thereafter	6,028	127,265
	<u>6,331</u>	<u>\$ 211,660</u>

BROOKFIELD RESIDENTIAL PROPERTIES INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(all dollar amounts are in thousands of U.S. dollars)

Investments in unconsolidated entities include \$23.7 million of the Company's share of non-refundable deposits and other entitlement costs in connection with 2,206 lots under option. The Company's share of the total exercise price of these options is \$109.1 million.

The Company holds agreements for a further 4,878 acres of longer-term land, with non-refundable deposits and other entitlement costs of \$6.1 million, which is included in land and housing inventory that may provide additional lots upon obtaining entitlements with an aggregate exercise price of \$59.6 million. However, given that the Company is in the initial stage of land entitlement, the Company has concluded at this time that the level of uncertainty in entitling these properties does not warrant including them in the above totals.

Note 3. Investments in Unconsolidated Entities

The Company participates in 14 unconsolidated entities in which it has less than a controlling interest. Summarized condensed financial information on a combined 100% basis of the unconsolidated entities follows:

In reporting the Company's share of net income, all inter-company profits or losses from unconsolidated entities are eliminated on lots purchased by the Company from unconsolidated entities. For the three and nine months ended September 30, 2011, the difference between the Company's share of the net income of its investments in unconsolidated entities and equity in earnings from unconsolidated entities primarily arises from differences in accounting policies followed by unconsolidated entities.

Unconsolidated entities in which the Company has a non-controlling interest are accounted for using the equity method. In addition, the Company has performed an evaluation of its existing unconsolidated entity relationships by applying the provisions of ASC Topic 810 *Consolidation*.

The Company and/or its unconsolidated entity partners have provided varying levels of guarantees of debt in its unconsolidated entities. At September 30, 2011, the Company had completion guarantees of \$5.0 million (December 31, 2010 – nil) and limited maintenance guarantees of \$11.7 million (December 31, 2010 – \$13.8 million) with respect to debt in its unconsolidated entities.

Note 4. Receivables and Other Assets

The components of receivables and other assets included in the Company's balance sheets are summarized as follows:

	September 30	December 31
	2011	2010
Receivables	\$ 235,543	\$ 179,423
Other assets	26,846	38,549
	<u>\$ 262,389</u>	<u>\$ 217,972</u>

The components of receivables included in the Company's balance sheets are summarized as follows:

	September 30	December 31
	2011	2010
Taxes receivable.....	\$ 206	\$ 3,288
Proceeds and escrow receivables	10,805	4,943
Notes receivable	–	19,000
Miscellaneous receivables	19,242	30,872

Development recovery receivables	82,202	83,404
Real estate receivables	121,714	36,927
	<u>\$ 235,543</u>	<u>\$ 179,423</u>

Proceeds and escrow receivables relate to receivables held in trust due to timing of housing sales that closed at the period end date. The collections of these receivables typically occur shortly after the period end once the funds are released by the trust or escrow company. As at September 30, 2011, and as at December 31, 2010, the proceeds and escrow receivable totalled \$10.8 million and \$4.9 million, respectively.

The Company has entered into development and cost sharing arrangements for the recovery of development expenditures with certain Metro Districts and developers whereby the Company has undertaken to put in place the infrastructure costs for certain communities. These receivables will be collected over the development life of the community and bear interest rates ranging from U.S. prime plus 1% to 6%. The fair value of these receivables is determined by discounting contractual principal and interest payments, where required, at estimated current market interest rates for the instrument. Current market interest rates are determined with reference to current benchmark rates for a similar term and credit spreads for instruments with similar terms and risk.

Real estate receivables include vendor take back ("VTB") mortgages receivable. The VTB collection terms range from one to three years and bear variable interest from Canadian prime to prime plus 3% and fixed interest rates of 6%. As at September 30, 2011, and as at December 31, 2010, the VTB receivable totalled \$121.2 million and \$33.8 million, respectively.

As at September 30, 2011 and December 31, 2010, allowances of nil and \$5.2 million, respectively, have been included in the totals above.

The components of other assets included in the Company's balance sheets are summarized as follows:

	September 30	December 31
	2011	2010
Prepaid expenses	\$ 1,943	\$ 1,963
Capital assets	12,216	13,762

Swap contracts (Note 14 (c) and (d))	179	2,238
Other.....	868	865
	<u>\$ 26,846</u>	<u>\$ 38,549</u>

Included in capital assets is accumulated amortization of \$9.8 million (December 31, 2010 – \$8.5 million).

Note 5. Restricted Cash

At September 30, 2011, the Company had restricted cash of \$9.1 million (December 31, 2010 – \$7.4 million). The balance of \$9.1 million (December 31, 2010 – nil) relates to cash collateralization of development letters of credit and nil (December 31, 2010 – \$7.4 million) relates to cash collateralization of a total return swap transaction.

Note 6. Project Specific and Other Financings

Project specific and other financings consist of the following:

	September 30	December 31
	2011	2010
Project specific financings.....	\$ 235,218	\$ 239,614
Bank indebtedness.....	399,272	421,685
Due to affiliates.....	208,000	364,040
	<u>\$ 842,490</u>	<u>\$ 1,025,339</u>

(a) Project Specific Financings

Project specific financings of \$235.2 million (December 31, 2010 – \$239.6 million) provided by a variety of lenders are revolving, bear interest at floating rates at a weighted average rate of 4.23% as at September 30, 2011 (December 31, 2010 – 3.93%) and are secured by land and housing inventory. The weighted average rate was calculated as of the end of each period, based upon the amount of debt balances outstanding and the related interest rates applicable on that date. Project specific financings mature as follows: 2011 – \$60.7 million; 2012 – \$131.0 million; 2013 – \$27.7 million; and 2014 and onwards – \$15.8 million.

\$140.0 million (December 31, 2010 – \$171.8 million) of the Company's project specific financings have variable interest rates ranging from prime plus 1.00% to LIBOR plus 3.50% and fixed rates ranging from 1.50% to 10.00%. These facilities require Brookfield Homes Holdings Inc., an indirect wholly-owned subsidiary of the Company, to maintain a tangible net worth of at least \$325.0 million, a net indebtedness to capitalization ratio of no greater than 65% and a net indebtedness to tangible net worth of no greater than 2.50 to 1.

\$46.7 million (December 31, 2010 – \$46.8 million) of project specific financings has floating interest rates ranging from the lower of prime less 0.50% to prime plus 3.25%, with some facilities having a floor of 4.50% to 5.25%. The remainder of this debt bears fixed interest rates ranging from 5.50% to 6.00% and is secured by land and water rights to which the borrowings relate. These credit facilities require Brookfield Residential U.S. Inc., an indirect wholly-owned subsidiary of the Company, to maintain a minimum net worth of \$80.0 million and a debt to net tangible worth ratio of not greater than 1.25:1.

\$47.0 million (December 31, 2010 – \$19.5 million) of project specific financings consist of ten secured VTB mortgages (December 31, 2010 – nine secured VTB mortgages) for raw land held for development by Brookfield Residential (Alberta) LP and Brookfield Homes (Ontario) Limited. This debt is repayable in Canadian dollars of C\$49.3 million (US\$47.0 million) (December 31, 2010 – C\$19.5 million (US\$19.5 million)). The interest rate on this debt ranges from 3.25% to 6.00% and the debt is secured by related lands. As at September 30, 2011, these borrowings have not been subject to financial covenants.

\$1.5 million (December 31, 2010 – \$1.5 million) of project specific financings consist of one secured VTB mortgage (December 31, 2010 – one secured VTB mortgage) for raw land held for development by Brookfield Residential (US) Inc. The interest rate on this debt is fixed at 6.00% and the debt is secured by related lands. As at September 30, 2011 these borrowings have not been subject to financial covenants.

As at September 30, 2011, the Company was in compliance with all covenants related to project specific financings.

(b) Bank Indebtedness

The Company has four secured credit facilities with Canadian banking syndicates and one unsecured credit facility with a U.S. bank totalling \$399.3 million.

The secured facilities are repayable in Canadian dollars in the amount of C\$409.8 million (US\$390.3 million) at September 30, 2011 (December 31, 2010 – C\$421.0 million (US\$421.7 million)). These facilities allow the Company to borrow up to approximately C\$533.5 million (US\$508.1 million) as at September 30, 2011 (December 31, 2010 – C\$516.5 million (US\$517.4 million)). The credit facilities bear interest between Canadian prime plus 0.50% and prime plus 1.00% for any amounts drawn and are repayable on demand with a term out period ranging from 90 to 364 days. The secured facilities are secured by fixed and floating charges over the land and housing inventory assets of the Canadian operations, a general charge over all assets

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(all dollar amounts are in thousands of U.S. dollars)

relating to Canadian operations and a general charge over all of Brookfield Residential (Alberta) LP and Brookfield Homes (Ontario) Limited.

The Brookfield Residential (Alberta) LP facilities include a minimum net worth requirement of C\$250.0 million (US\$238.1 million) and a debt to equity covenant of not greater than 1.75:1 for its limited partnership. The Brookfield Homes (Ontario) Limited facility includes two covenants: a minimum debt to tangible net worth ratio of 2.0:1 and a net worth requirement of C\$80.0 million (US\$76.2 million). As at September 30, 2011, the Company was in compliance with all covenants related to bank indebtedness.

The unsecured credit facility is repayable in U.S. dollars in the amount of \$9.0 million at September 30, 2011 (December 31, 2010 – nil). The facility was entered into on April 6, 2011 and allows the Company to borrow up to \$10.0 million as at September 30, 2011. The credit facility bears an interest rate of LIBOR plus 3%. The facility requires Brookfield Homes Holdings Inc., an indirect wholly-owned subsidiary of the Company, to maintain a tangible net worth of at least \$300.0 million, and a net indebtedness to tangible net worth of no greater than 2.50 to 1. As at September 30, 2011, the Company was in compliance with all covenants related to bank indebtedness.

(c) Due to Affiliates

Due to affiliates of \$208.0 million (December 31, 2010 – \$364.0 million) consists of amounts drawn on two unsecured revolving credit facilities due to subsidiaries of the Company's largest shareholder, Brookfield Asset Management Inc. Prior to the March 31, 2011 merger, one unsecured facility due to a subsidiary of Brookfield Office Properties had a balance drawn of \$204.0 million at December 31, 2010. The unsecured facility was eliminated on completion of the merger transaction.

The revolving operating facility of \$125.0 million is in a principal amount not to exceed \$125.0 million, matures December 2013 and bears interest at LIBOR plus 3.5% per annum. During the three and nine months ended September 30, 2011, interest of \$1.0 million and \$2.9 million, respectively, (2010 – \$1.0 million and \$2.9 million, respectively) was incurred related to this facility.

The revolving acquisition and operating facility of \$83.0 million is in a principal amount not to exceed \$100.0 million, matures December 2012 and currently bears interest at 14% per annum. This facility is available for the acquisition of land and housing assets and for operations. During the three and nine months ended September 30, 2011, interest of \$2.9 million and \$8.4 million, respectively, (2010 – \$1.4 million and \$4.2 million, respectively) was incurred related to this facility.

Both of these facilities have covenants to maintain a minimum total equity of \$300.0 million and a consolidated net debt to book capitalization ratio of no greater than 70%. As of September 30, 2011, the Company was in compliance with all covenants relating to amounts due to affiliates.

Subsequent to September 30, 2011, the Company amended the terms of the revolving operating and revolving acquisition and operating facility due to Brookfield Asset Management Inc. Please refer to note 19 for additional information.

Note 7. Notes Payable

On March 31, 2011, the Company entered into two promissory notes payable to Brookfield Office Properties, a C\$265.0 million (US\$252.4 million) senior note and a C\$215.0 million (US\$204.8 million) junior subordinated note. The senior note bears a fixed rate of interest of 6.5% and has a term to December 31, 2015 with principal payments of C\$50.0 due on each of the last business day of 2012, 2013 and 2014 and the balance of C\$115.0 million to be paid on December 31, 2015. The C\$215.0 million junior subordinated note bears a fixed rate of interest of 8.5% and is payable in full on December 31, 2020.

The covenants with respect to both of these notes payable are that Brookfield Residential Properties Inc. maintains total equity of \$750.0 million and a consolidated net debt to book capitalization ratio of no greater than 65%. As of September 30, 2011, the Company was in compliance with both covenants relating to notes payable.

Subsequent to September 30, 2011, the Company amended the terms of the C\$265.0 million senior note. Please refer to note 19 for additional information.

Development costs payable	56,456	51,040
Current income taxes payable	15,913	—
	<u>\$ 254,211</u>	<u>\$ 288,456</u>

Note 9. Income Taxes

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of the assets and liabilities for financial reporting purposes and the amounts for income tax purposes. The temporary differences that give rise to the net deferred tax asset are as follows:

	September 30	December 31
	2011	2010
Differences relating to properties.....	\$ 16,983	\$ 16,331
Compensation deductible for tax purposes when paid	3,693	8,687
Differences relating to derivative instruments	6,241	4,927
Loss carry-forward	63,555	45,317
Other.....	(17,322)	(37)
Deferred income tax assets	73,150	75,225
Valuation allowance	(82,521)	—
Deferred tax (liabilities) / asset.....	<u>\$ (9,371)</u>	<u>\$ 75,225</u>

In accordance with the provisions of ASC Topic 740 *Income Taxes*, the Company assesses, at each reporting period, its ability to realize its deferred tax asset on a jurisdictional basis. The Company's assessment of recent years' losses and the resulting three-year cumulative loss from the U.S. operations, together with the uncertainty of the U.S. housing market, is evidence of the need for a valuation allowance against its net U.S. deferred tax asset. The valuation allowance amounted to \$82.5 million as at September 30, 2011 (December 31, 2010 – nil). The Company does not believe a valuation allowance against the Canadian deferred tax asset is necessary.

Note 10. Share-Based Compensation

(a) Option Plan

As a result of the merger transaction, the outstanding options of Brookfield Homes were exchanged for options under the Company's share plan exercisable upon the same terms and conditions as under the Brookfield Homes share plans. At March 31, 2011, the in-the-money Brookfield Homes options were converted at the merger exchange ratio of 0.76490053 Brookfield Residential options for each Brookfield Homes option. The out-of-the-money Brookfield Homes options were cancelled and replaced with new options of Brookfield Residential with an equivalent Black-Scholes value. All values and disclosures below relating to Brookfield Homes' options have been converted at the above exchange ratio to disclose the Brookfield Residential equivalent.

Brookfield Residential grants options to purchase shares at the market price of the shares on the day the options are granted, determined in accordance with the stock option plan. The fair value of the Company's stock option awards is estimated at the grant date using a Black-Scholes option-pricing model that uses the assumptions noted in the table below. The fair value of the Company's stock option awards are expensed over the vesting period of the stock options. Expected volatility is based on

historical volatility of Brookfield Residential's and Brookfield Homes Corporation's common shares. The risk-free rate for periods within the contractual life of the stock option award is based on the yield curve of a zero-coupon U.S. Treasury bond with a maturity equal to the expected term of the stock option award granted. The Company uses historical data obtained from Brookfield Residential and Brookfield Homes to estimate stock option exercises and forfeitures within its valuation model. The expected term of stock option awards granted for some participants is derived from historical exercise experience under the Company's stock option plan and represents the period of time that stock option awards granted are expected to be outstanding.

During the three and nine months ended September 30, 2011, Brookfield Residential granted a total of nil and 1,618,380 new share options, respectively (September 30, 2010 – nil and 217,997, respectively) to eligible employees that are subject to graded vesting. The significant weighted average assumptions relating to the valuation of the Company's stock options granted during the nine months ended September 30, 2011 and September 30, 2010 are as follows:

	September 30 2011	September 30 2010
Dividend yield.....	—	—
Volatility rate.....	75%	66%
Risk-free interest rate	2.83%	3.69%
Expected option life (years)	7.5	7.5

The total compensation cost recognized in income relating to the Company's stock options during the three and nine months ended September 30, 2011 was an expense of \$2.0 million and \$4.0 million, respectively (September 30, 2010 – \$0.3 million and \$0.7 million, respectively). The following tables set out the number of common shares that employees of the Company may acquire under options granted under the Company's stock option plan at September 30, 2011 and September 30, 2010:

Cancelled	(44,364)	\$ 4.50
Unvested options outstanding, September 30, 2010	<u>1,404,358</u>	<u>\$ 3.01</u>

At September 30, 2011, there was \$13.7 million (September 30, 2010 – \$2.4 million) of unrecognized expense related to unvested options, which is expected to be recognized over the remaining weighted average period of 4.3 years (September 30, 2010 – 2.9 years). In June 2011, the Company established an escrowed stock plan which allows certain executives to increase ownership of Brookfield Residential common shares. Under the escrowed plan, a private company was capitalized with common shares (the "escrowed shares") and preferred shares issued to Brookfield Residential for cash proceeds. The proceeds were used to purchase 2.0 million Brookfield Residential common shares from Brookfield Asset Management Inc. with 75% of the escrowed shares granted to an executive. The escrowed shares vest on and must be held until the fifth anniversary of the grant date. At a date at least five years from and no more than ten years from the grant date, all escrowed shares held will be exchanged for a number of common shares issued from treasury of the Company, based on the market value of common shares at the time of exchange.

(b) Deferred Share Unit Plan

Brookfield Homes had a Deferred Share Unit Plan ("DSUP") under which certain of its executive officers and directors could, at their option, receive all or a portion of their annual bonus awards or retainers, respectively, in the form of deferred share units. Brookfield Homes could also make additional grants of units to its executives and directors pursuant to the DSUP. In addition, Brookfield Homes had a Senior Operating Management Deferred Share Unit Plan ("MDSUP"), under which certain senior operating management employees received a portion of their annual compensation in the form of deferred share units. At March 31, 2011, as a result of the merger transaction, the outstanding deferred share units of Brookfield Homes' issued under the DSUP and MDSUP were exchanged for deferred share units of Brookfield Residential deferred share units at the merger exchange ratio of 0.76490053. All values and disclosures below relating to Brookfield Homes' DSUPs and MDSUPs have been converted at the above exchange ratio to disclose the Brookfield Residential equivalent.

As of September 30, 2011, 1,838,587 of the Company's deferred units were outstanding, 499,761 were vested and 1,338,826 vest over the next five years. Of the 1,838,587 outstanding deferred share units, 26,020 are outstanding under the MDSUP.

The following table sets out changes in and the number of deferred share units that executives, directors and senior operating management employees may redeem under the Brookfield Residential's DSUP and MDSUP at September 30, 2011:

	September 30 2011
Outstanding, December 31, 2010	723,745
Granted	1,295,270

Outstanding, September 30, 2010	<u>723,747</u>
Deferred share units vested at September 30, 2010	<u>467,204</u>

The liability of \$4.3 million (December 31, 2010 – \$8.1 million) relating to the DSUP and MDSUP is included in accounts payable and other liabilities. The financial statement impact relating to the DSUP and MDSUP for the three and nine months ended September 30, 2011 was a recovery of \$1.4 million and \$1.0 million, respectively (2010 – expense of \$1.8 million and \$1.1 million, respectively).

Note 11. Other Interests in Consolidated Subsidiaries, Unconsolidated Entities and Non-controlling Interest

Other interests in consolidated subsidiaries includes ownership interests of certain business unit presidents of the Company totalling \$34.3 million (December 31, 2010 – \$42.5 million). In the event a business unit president ("Minority Member") of the Company is no longer employed by an affiliate of the Company, the Company has the right to purchase the Minority Member's interest and the Minority Member has the right to require the Company to purchase their interest. Should such rights be exercised, the purchase price will be based on the then estimated value of the business unit's net assets.

The following table reflects the change in the Company's other interests in consolidated subsidiaries for the nine months ended September 30, 2011 and the year ended December 31, 2010:

	September 30 2011	December 31 2010
Other interests in consolidated subsidiaries, beginning of period	\$ 42,461	\$ 47,011
Net loss attributable to other interests in consolidated subsidiaries	(6,847)	(976)
Distributions from other interests in consolidated subsidiaries	(1,288)	(3,574)
Other interests in consolidated subsidiaries, end of period	<u>\$ 34,326</u>	<u>\$ 42,461</u>

Non-controlling interest includes third-party investments of consolidated entities of \$6.1 million (December 31, 2010 – \$6.5 million).

In accordance with ASC Topic 810 *Consolidation*, non-controlling interest has been classified as a component of total equity and the net income / (loss) on the consolidated statement of operations has been adjusted to include the net loss attributable to non-controlling interest which for the three and nine months ended September 30, 2011 was nil and nil, respectively (2010 – nil and nil, respectively) and other interests in consolidated subsidiaries which for the three and nine months ended September 30, 2011 was \$0.5 million and \$6.8 million, respectively (2010 – nil and \$0.8 million, respectively).

As of January 1, 2010, the Company had a 50% non-controlling interest in a land development project with a third party where the assets, liabilities and results of operations were consolidated into the interim financial statements with the corresponding non-controlling interest presented. On March 9, 2010, the Company acquired the remaining 50% non-controlling interest in the unconsolidated entity for a nominal dollar amount. The excess of the non-controlling interest acquired over the consideration was recorded as a deemed contribution to equity.

The following table reflects the changes in the Company's non-controlling interest related to the unconsolidated entity for the year ended December 31, 2010:

	December 31 2010
Balance, at beginning of period	\$ 8,788

Note 12. Equity

(a) Preferred Shares

The Brookfield Residential 8% convertible preferred shares are convertible at the option of the shareholder into common shares of the Company, at a conversion rate of 2.731787607 common shares per convertible preferred share, which is equivalent to a conversion price of \$9.15 per share, subject to further adjustment. Dividends on convertible preferred shares will be fully cumulative, without interest, from the date of original issuance of the convertible preferred shares and will be payable semi-annually in arrears. There were no preferred share dividends in arrears for the period ended September 30, 2011 (December 31, 2010 – nil). The convertible preferred shares are perpetual and do not have a maturity date; however, beginning June 30, 2014, if the 90-day volume weighted average market price of the Company's common shares is greater than \$18.30 per share, Brookfield Residential may, at its option, require all preferred shares to be automatically converted into common shares.

An unlimited number of preferred shares without par value are authorized, of which 70,002 shares are designated as Brookfield Residential 8% convertible preferred shares, series A.

As part of the merger transaction, \$38.5 million of preferred shares issued by the Brookfield Office Properties' residential division were eliminated upon the completion of the merger transaction.

(b) Common Shares

As a result of the merger transaction, Brookfield Residential issued 101,342,718 common shares. The Company is authorized to issue an unlimited number of common shares with no stated par value.

(c) Treasury Stock

Prior to March 31, 2011, Brookfield Homes had a share repurchase program that allowed Brookfield Homes to repurchase in aggregate up to \$144.0 million of the Company's outstanding common shares. During the year ended December 31, 2010, 1,213,393 treasury shares were issued pursuant to a stock dividend paid to the preferred stockholders. This issuance of treasury shares was accounted for on an average cost basis. The difference between the amount of the \$10.0 million dividend and the average cost of the treasury shares of \$55.2 million issued has been charged to retained earnings. At March 31, 2011, the treasury stock of Brookfield Homes was cancelled as a result of the completion of the merger transaction.

Note 13. Earnings / (Loss) Per Share

Basic and diluted earnings / (loss) per share for the three and nine months ended September 30, 2011 and 2010 were calculated as follows:

	Three Months Ended September 30		Nine Months Ended September 30	
	2011	2010	2011	2010
Numerator:				
Net income / (loss) attributable to Brookfield Residential	\$ 19,201	\$ 34,535	\$ (18,515)	\$ 91,498
Less: Preferred share dividends	—	(5,000)	(109)	(15,000)
Net income / (loss) attributable to common shareholders	\$ 19,201	\$ 29,535	\$ (18,624)	\$ 76,498
Denominator:

Diluted earnings / (loss) per share	\$ 0.19	\$ 0.29	\$ (0.19)	\$ 0.75

As the merger transaction was deemed to take place between entities under common control and has been accounted for as continuity of interest, the three and nine months ended September 30, 2010 uses the basic and diluted average shares outstanding of the combined entities.

BROOKFIELD RESIDENTIAL PROPERTIES INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(all dollar amounts are in thousands of U.S. dollars)

Note 14. Commitments, Contingent Liabilities and Other

(a) The Company is party to various legal actions arising in the ordinary course of its business. In addition, a subsidiary of the Company is party to a lawsuit that has been filed in Delaware, Chancery Court, alleging breach of fiduciary duties relating to the merger transaction. Management intends to vigorously defend these claims and believes the claims are without merit. An estimate of the possible loss or range of loss cannot be made. Management believes that none of these actions, either individually or in the aggregate, will have a material effect on the financial condition, results of operations or cash flows of the Company.

(b) When selling a home, the Company's subsidiaries provide customers with a limited warranty. The Company estimates the costs that may be incurred under each limited warranty and records a liability in the amount of such costs at the time the revenue associated with the sale of each home is recognized. In addition, the Company has insurance in place where its subsidiaries are subject to the respective warranty statutes in the state or province where the Company conducts business which range up to ten years for latent construction defects. Factors that affect the Company's warranty liability include the number of homes sold, historical and anticipated rates of warranty claims, and cost per claim. The Company periodically assesses the adequacy of its recorded warranty liabilities and adjusts the amounts as necessary. The following table reflects the changes in the Company's warranty liability for the nine months ended September 30, 2011 and 2010:

	Nine Months Ended September 30	
	2011	2010
Balance, beginning of period	\$ 12,214	\$ 13,892
Payments and other adjustments made during the period.....	(1,620)	(2,500)
Warranties issued during the period.....	396	2,949
Adjustments made for pre-existing warranties	(585)	250
Balance, end of period.....	<u>\$ 10,405</u>	<u>\$ 14,591</u>

(c) The Company is exposed to financial risk that arises from fluctuations in interest rates. The interest-bearing assets and liabilities of the Company are mainly at floating rates and, accordingly, their fair values approximate cost. The Company would be negatively impacted on balance, if interest rates were to increase. From time to time, the Company enters into interest rate swap contracts. As at September 30, 2011, the Company had five interest rate swap contracts outstanding totalling \$150.0 million at an average rate of 4.9% per annum. The contracts expire between 2011 and 2017. At September 30, 2011, the fair market value of the contracts was a liability of \$16.4 million (December 31, 2010 – liability of \$15.2 million) and was included in accounts payable and other liabilities. Expense of \$4.2 million and \$6.5 million, respectively, was recognized during the three and nine months ended September 30, 2011, respectively (2010 – expenses of \$2.6 million and \$5.4 million, respectively) and was included in other (expense) / income. All interest rate swaps are recorded at fair market value and fluctuations in fair market value are presented in the statements of operations because hedge accounting has not been applied.

The fair value measurements for the interest rate swap contracts are determined based on notional amounts, terms to maturity, and the LIBOR rates. The LIBOR rates vary depending on the term to maturity and the conditions set out in the underlying swap agreements.

(d) The Company is exposed to financial risk that arises from fluctuations in its common share price. To hedge against future deferred share unit payments, in September 2011, the Company entered into a total return swap transaction at an average cost of \$6.42 per share on 782,483 shares, maturing in September 2016. In August 2010, the Company entered into a total return swap transaction at an average cost of \$9.39 per share on 782,482 shares, maturing in August 2011. At September 30, 2011, the fair market value of the total return swap was an asset of \$0.2 million and was included in accounts receivable and other assets (December 31, 2010 – asset of \$2.2 million). Expense of \$2.5 million and \$4.4 million was recognized during the three and nine months ended September 30, 2011 (2010 – income of \$1.4 million and \$0.1 million, respectively) and was included in selling, general and administrative expense. Also included in selling, general and administrative expense for the three and nine months ended September 30, 2011 was expense of \$0.5 million and income of \$5.3 million, respectively (2010 – expense of \$1.8 million and \$1.1 million, respectively) relating to the Company's share-based compensation plans. The total return swap is recorded at fair market value and is recorded through the statements of operations because hedge accounting has not been applied. See Note 16 for additional disclosure.

(f) As at September 30, 2011, \$11.6 million (December 31, 2010 – \$19.7 million) of the amount held in other assets related to land purchase obligations. The total amount owing on these obligations is \$68.7 million (December 31, 2010 – \$86.5 million).

Note 15. Guarantees

(a) The Company has provided financial guarantees for bonds which, as at September 30, 2011 amount to \$18.1 million (December 31, 2010 – \$18.1 million), which have not been recognized in the interim financial statements. These guarantees arose from the issuance of tax-exempt municipal bonds for infrastructure construction in the Company's U.S. operations. The terms of the guarantees span the life of the projects, which range from three to ten years. The value of the guarantees is reduced as completion milestones are achieved on the projects and is terminated on or before community build out. Payment of the guarantees is triggered in the event that the debt payments to the bondholders are not fulfilled. The Company has not been required to make any payments under these municipal bonds.

(b) In the ordinary course of business, the Company has provided construction guarantees in the form of letters of credit and performance bonds. As at September 30, 2011, these guarantees amounted to \$220.6 million (December 31, 2010 – \$236.1 million), which have not been recognized in the interim financial statements. However, the proportionate development costs that relate to lots that have been sold are accrued to Accounts Payable and Other Liabilities. Such guarantees are required by the municipalities in which the Company operates before construction permission is granted.

The scope of these guarantees cover specific construction obligations of individual projects as they are developed, and the term of these guarantees span the life of the projects, which range from three to ten years. The values of the guarantees are reduced as completion milestones are achieved on the projects.

These guarantees are terminated only when the municipality has issued conditions to release a Final Acceptance Certificate or similar document to the Company, which verifies that the entity has fulfilled all its contractual obligations. Payment of the guarantees is triggered in the event expired letters of credit or performance bonds are not renewed and the contractual obligations have not been fulfilled. The Company has not been required to make any payments under these construction guarantees.

Note 16. Fair Value Measurements

ASC Topic 820 *Fair Value Measurements and Disclosures* provides a framework for measuring fair value, expands disclosures about fair value measurements and establishes a fair value hierarchy which requires a company to prioritize the use of observable inputs and minimize the use of unobservable inputs in measuring fair value.

The Company's financial assets are measured at fair value on a recurring basis and are as follows:

	Fair Value Measurements Using Significant Observable Inputs (Level 2)	
	September 30	December 31
	2011	2010
Interest rate swap contracts	\$ (16,423)	\$ (15,206)

The fair value measurements for the interest rate swap contracts are determined based on notional amounts, terms to maturity, and the LIBOR rates. The LIBOR rates vary depending on the term to maturity and the conditions set out in the underlying swap agreements.

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)	
	September 30	December 31
	2011	2010
Equity swap contract.....	\$ 179	\$ 2,238

The fair value measurement for the equity swap contract is determined based on the notional amount, share price, the number of underlying shares and the three month LIBOR rate.

The fair value measurements for housing and land inventory were determined by comparing the carrying amount of an asset to its expected future cash flows. To arrive at the estimated fair value of land and housing inventory deemed to be impaired during the period ended September 30, 2011, the Company estimated the cash flow for the life of each project. Specifically, project by project, the Company evaluated the margins on homes that have been closed, margins on sales contracts which are in backlog, estimated margins with regard to future home sales over the life of the projects, as well as estimated margins with respect to future land sales. The Company evaluated and continues to evaluate projects where inventory is turning over more slowly than expected or whose average sales price and margins are declining and are expected to continue to decline. These projections take into account the specific business plans for each project and management's best estimate of the most probable set of economic conditions anticipated to prevail in the market area. Such projections generally assume current home selling prices, with cost estimates and sales rates for short-term projects consistent with recent sales activity. For longer-term projects, planned sales rates for 2011 and 2012 assume recent sales activity and normalized sales rates beyond 2012. If the future undiscounted cash flows are less than the carrying amount, the asset is considered to be impaired and is then written down to fair value less estimated selling costs.

There are several factors that could lead to changes in the estimate of future cash flows for a given project. The most significant of these include the sales pricing levels actually realized by the project, the sales rate, and the costs incurred to construct the homes. The sales pricing levels are often inter-related with sales rates for a project, as a price reduction usually results in an increase in the sales rate. Further, pricing is heavily influenced by the competitive pressures facing a given community from both new homes and existing homes, including foreclosures.

The Company has reviewed all of its projects for impairment in accordance with the provisions of ASC Topic 360 *Property, Plant and Equipment* and ASC Topic 820 *Fair Value Measurements and Disclosures*. For the three and nine months ended September 30, 2011 and September 30, 2010, no impairment charge was recognized.

Operations receivables are measured at amortized cost. Carrying value approximates fair value due to the floating interest rates being charged or due to the short-term nature of the assets.

The Company's financial liabilities, which include project specific and other financings, bank indebtedness, due to affiliates, notes payable and accounts payable and other liabilities are measured at amortized cost.

The fair value debt with fixed interest rates is determined by discounting contractual principal and interest payments at estimated current market interest rates determined with reference to current benchmark rates for a similar term and current credit spreads for debt with similar terms and risk. As at September 30, 2011, the fair value exceeded its book value of all outstanding debt by \$49.3 million (December 31, 2010 – fair value of debt exceeded book value by \$6.0 million). The lands to which these borrowings relate generally secure these principal amounts.

The carrying value of bank indebtedness approximates fair value due to its floating rate nature and the carrying value of accounts payable and other liabilities approximates fair value due to their short-term nature.

Note 17. Segmented Information

As defined in ASC Topic 280, *Segmented Reporting*, the Company has the following segments: Canada, California and Central and Eastern U.S.

The Company is a land developer and residential homebuilder. The Company is organized and manages its business based on the geographical areas in which it operates. Each of the Company's segments specializes in lot entitlement and development and the construction of single-family and multi-family homes. The Company evaluates performance and allocates capital based primarily on return on assets together with a number of other risk factors. Earnings performance is measured using segment operating income. The accounting policies of the segments are the same as those referred to in Note 1, "Significant Accounting Policies."
